The facilities people operate within are evolving to cater to changes in technology, presenting new opportunities for improved safety, connectivity, productivity and efficiency.

This technology workshop will explore best practices for smart infrastructure of various environments, including:

- **Commercial buildings**
- **Healthcare facilities**
- **Schools and colleges**
- **Data centers**
- **Cities and municipalities**

Attendees will engage with industry leaders and have an opportunity to network with Anixter's technology partners.

In addition, integrators will be invited for an afternoon bootcamp that develops a roadmap to enhancing skills to bring more value to customers.

Why attend?
- Explore the latest trends in smart environments
- Network with thought leaders and world-class manufacturers
- Earn up to 3 BICSI credits

If you work for the government, please determine whether your agency's policies permit you to attend this training session. **Click here** for more details and prohibitions on training, eligibility for industry associations' continuing education credits (e.g., BICSI CECs), prizes, food or beverages.

CONVERGED TECHNOLOGY FORUM

A one-day workshop for end users, integrators and consultants responsible for smart environments.

TUESDAY, NOVEMBER 6, 2018

Courtyard by Marriott Sacramento Cal Expo
1782 Tribute Rd. | Sacramento, CA
